20 €
Hourly rate

Software development and technical work

Development and technical work include website, application and firmware programming, and agreed device and network configuration and diagnostics. The exact task is specified in the quote.

Price on 10 September 2026: 30 €

30 €
Hourly rate

How do we agree on the work and billing?

An hour is the billing unit. Hourly work is billed according to recorded time. Scope, estimated work and costs are agreed before starting. A project may have a fixed price; extra work outside the quote is agreed separately.

Equipment, materials, licences, hosting, domains and travel are not included in the hourly rate. If required, they are listed in the quote before you accept it.

Kodara is not registered for VAT. VAT is not added to the listed prices.
